

Homework Assignment Number Three

Read these instructions carefully.

Follow these steps to do the homework:

- (1) Go to http://clausius.engr.utk.edu/che301/webhw/choose_action.html and print out a version of the homework. This will require your student id and assign you a unique homework set.
- (2) Work the homework problems as you usually would.
- (3) When you are finished and you have the answers, submit them back to http://clausius.engr.utk.edu/che301/webhw/choose_action.html

Notes:

- (a) The numbers in your homework will be different than everyone else's homework.
- (b) No work will be turned into class. All work must be turned into the web-page by the deadline.
- (c) The grading scale for this assignment is 1 point for each correct answer and 0 points for each incorrect answer.
- (d) If you experience technical difficulties with this site, please email the instructor.
- (e) You can only submit your solutions once so make sure you have all the problems done before you submit your work. Warning: On Microsoft Internet Explorer, hitting the "enter" key is equivalent to hitting the "submit" button. So don't hit "enter" until you are done with all of the problems. On Netscape, this is not a problem.
- (f) If you disagree with the solutions, print out the web page that appears after you have submitted your solutions (which contains both your answers and the correct solutions), and bring that paper to my office hours.
